## DATA SCIENCE PORTFOLIO

**Guided Capstone Project Report** – Python analysis of the ticket price for fictional ski resort

- Analyzed market prices for competing ski resorts across the country and locally
- Used random forest and linear regression machine learning algorithms to determine most important features
- Provided actionable insight into ticket prices and cost-saving measures to increase revenue

**Federalist Papers** – Natural language processing classification of the federalist papers authors

- Cleaned and vectorized the data in multiple ways
- Explored different machine learning options including logistic regression and neural networks

**Store Sale Prediction** – Predicting total sales for each product and store for the next month, *In progress*

- Analyzed trends for storefronts and time to uncover overall and seasonal trends
- Used feature engineering to improve model accuracy and extract most useful measures
- Resulted in a top N score for the Kaggle competition

## CERTIFICATIONS

- Python (Programming Language) Skill Assessment badge
  - Data Science Career Track Program
- LinkedIn, Nov. 2021  
Springboard, Early 2022

## EDUCATION

**The University of Texas at Dallas, School of Brain and Behavioral Science**

Bachelor of Science, *Cum Laude*, in Cognitive Science and Psychology

- Collegium V Honors, Major Honors, Dean's Awards for Excellence
- National Merit Scholar, James E. Casey Scholar
- Proficient in Mandarin Chinese

**Richardson, TX**

May 2021

## EXPERIENCE

**UTDallas, Research Assistant**

***Developmental Neurolinguistics Laboratory***

- Conducted data collection, manipulation, and verification with Excel, EEGLab, Audacity, and Matlab
- Provided leadership and training to lab members, directly managing tasks on a day to day basis
- Designed and executed novel studies using new and preexisting lab data

**Dallas, TX**

May 2019 – May 2021

**UTDallas, Sports Team Leader/Coach**

***UTDallas Fencing Club***

- Current coach training current best regional non-NCAA collegiate fencing team
- Elected as Club Captain to lead and design practices and training exercises
- Rated C21 in Epee, E19 in Foil

**Richardson, TX**

May 2019 – Present

## SKILLS

- Python, Numpy, Pandas, Matplotlib, Seaborn, NLTK, SQL
- Exploratory data analysis, machine learning, natural language processing
- Public speaking and presenting, Microsoft office, etc

## INTERESTS

- I feel mental health is directly correlated with physical health, so I enjoy fencing and weightlifting.
